OptimuMedicine Earns NAAMTA Global Accreditation for Fixed-Wing and Ground Ambulance Operations

Las Vegas, NV— After an independent, external evaluation of administrative documentation, medical practices, and facilities, is being awarded accreditation for its fixed-wing and ground ambulance operations by the National Accreditation Alliance of Medical Transport Applications ([NAAMTA Global](#)).

[OptimuMedicine](#) has officially been awarded accreditation by the National Accreditation Alliance of Medical Transport Applications (NAAMTA Global) for both its fixed-wing and ground ambulance services. This distinction follows a comprehensive independent review of OptimuMedicine's administrative protocols, medical practices, and transport facilities.

NAAMTA Global's rigorous accreditation program is built upon industry-leading standards that emphasize patient care quality and the safety of medical transports. The process is designed to be consultative and educational, helping organizations like OptimuMedicine integrate best practices that elevate service quality and safety for patients and staff alike. Achieving this accreditation is widely regarded as a hallmark of excellence by medical industry peers, third-party payers, liability insurers, government agencies, and the public.

Through its commitment to NAAMTA's standards, OptimuMedicine demonstrated exceptional compliance, exceeding expectations in implementing best practices across its operations. Employee interviews, on-site evaluations, and detailed process reviews—conducted in line with [ISO 9001:2015](#) auditing guidelines—confirmed OptimuMedicine adherence to these high standards.

With this accreditation, OptimuMedicine also joins the prestigious NAAMTA Alliance, a collective of accredited medical transport organizations. As part of the Alliance, OptimuMedicine will have access to a network of top-tier organizations, promoting collaboration, shared knowledge, and continuous improvement in patient care and safety.

"We take great pride in earning this accreditation, which showcases the dedication and effort of our team in delivering exceptional care and ensuring patient safety during transport," said Owen McKeany, Chief Operations Officer at OptimuMedicine. "The support from NAAMTA throughout this process was crucial in helping us reach this significant milestone."

Roylen Griffin, NAAMTA Executive Director states, “OptimuMedicine’s unwavering commitment to excellence shines through in every aspect of their operations. This accreditation highlights their dedication to providing safe, high-quality transport services, and we are proud to welcome them into the NAAMTA Alliance.”

About OptimuMedicine

OptimuMedicine was founded in 2017 by a group of nurses, nurse practitioners, paramedics and a physician who desired to improve the overall quality of healthcare in the communities they served by first improving prehospital and interfacility transport and then bridging the gap from the Emergency Department to the Intensive Care Unit. Our mission is to provide excellent care to each patient we encounter, relevant and timely education to each of our students, and model integrity with every interaction.

About NAAMTA Global

NAAMTA was formed in 2009 and expanded to international accreditation in 2013 by successfully identifying the standards for best practices and performance among medical escort, medical transport, and emergency medical service providers.

NAAMTA Global is a worldwide accreditation standard-bearer offering standard criteria and procedures that include guidelines for developing a system focused on transport safety, patient care, quality management, and continuous improvement.

NAAMTA’s [ISO 9001 Quality Management System](#) is registered and audited annually by [PRI Registrar](#), an [ANSI-ASQ National Accreditation Board](#)-approved Registrar. NAAMTA is recognized for integration of quality and safety management elements as part of all NAAMTA accreditation standards.

Through a dynamic approach to auditing and an array of web-based tools, NAAMTA distinguishes itself as an accreditation source in providing member services and improving medical transportation industry practices.
